

## Intergroup Association of Nassau, Inc.

Each group must make its own decision on whether, when, where and how much to contribute to any AA service entity (the AA service structure). In considering making contributions, it may be helpful to learn how each service entity uses the money contributed to it. For Nassau Intergroup, the annual budget report and the monthly treasurer's reports provide good information. Similar information should be available from the other service entities.

The following lists the major AA groups serving AA in Nassau County and beyond, and how to reach them for information or to send a contribution.
